Qualification as a “Machinery CE Expert”

Based on decades of experience, Schmersal has developed this seminar and its contents and had them certified by TÜV Rheinland®.

The course conveys in a compact form all the knowledge required to implement a CE conformity assessment procedure for machines and plants with all the relevant sub-steps. In this compactness and with this extensive knowledge transfer, the seminar in this form is almost unique on the market.

Upon successful completion, participants can prove their acquired qualification as an expert in machine safety by means of a certificate issued by TÜV Rheinland®.

You are entitled to use the title “Machinery CE Expert® with TÜV Rheinland® certified qualification”. This qualification is internationally recognised.

In the online certificate database “Certipedia”, TÜV Rheinland® provides information on all tested product features, services, companies, systems and personnel certifications (www.certipedia.com). The description of the seminar “Machinery CE Expert®” as well as the individual identification number of each graduate can be viewed and verified in the “Certipedia”.
